Pls refer to the GPS configuration document.

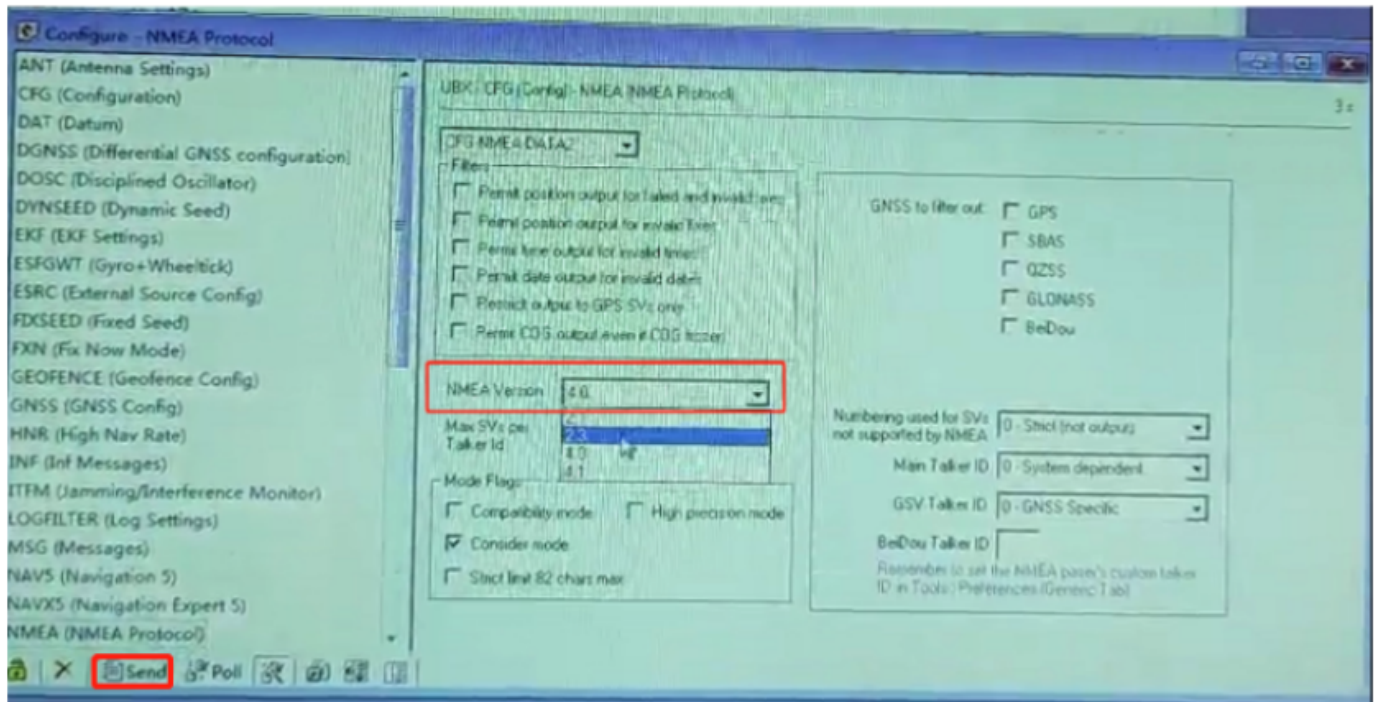

SET ONLY GPS.

step1: open the menu bar "View-"Configure View"- "GNSS (GNSS Config)", do below you want, then click "send":

only GPS

step2: open the menu bar "View-"Configure View"- "NMEA (NMEA Protocol)", do below according step1, then click "send":

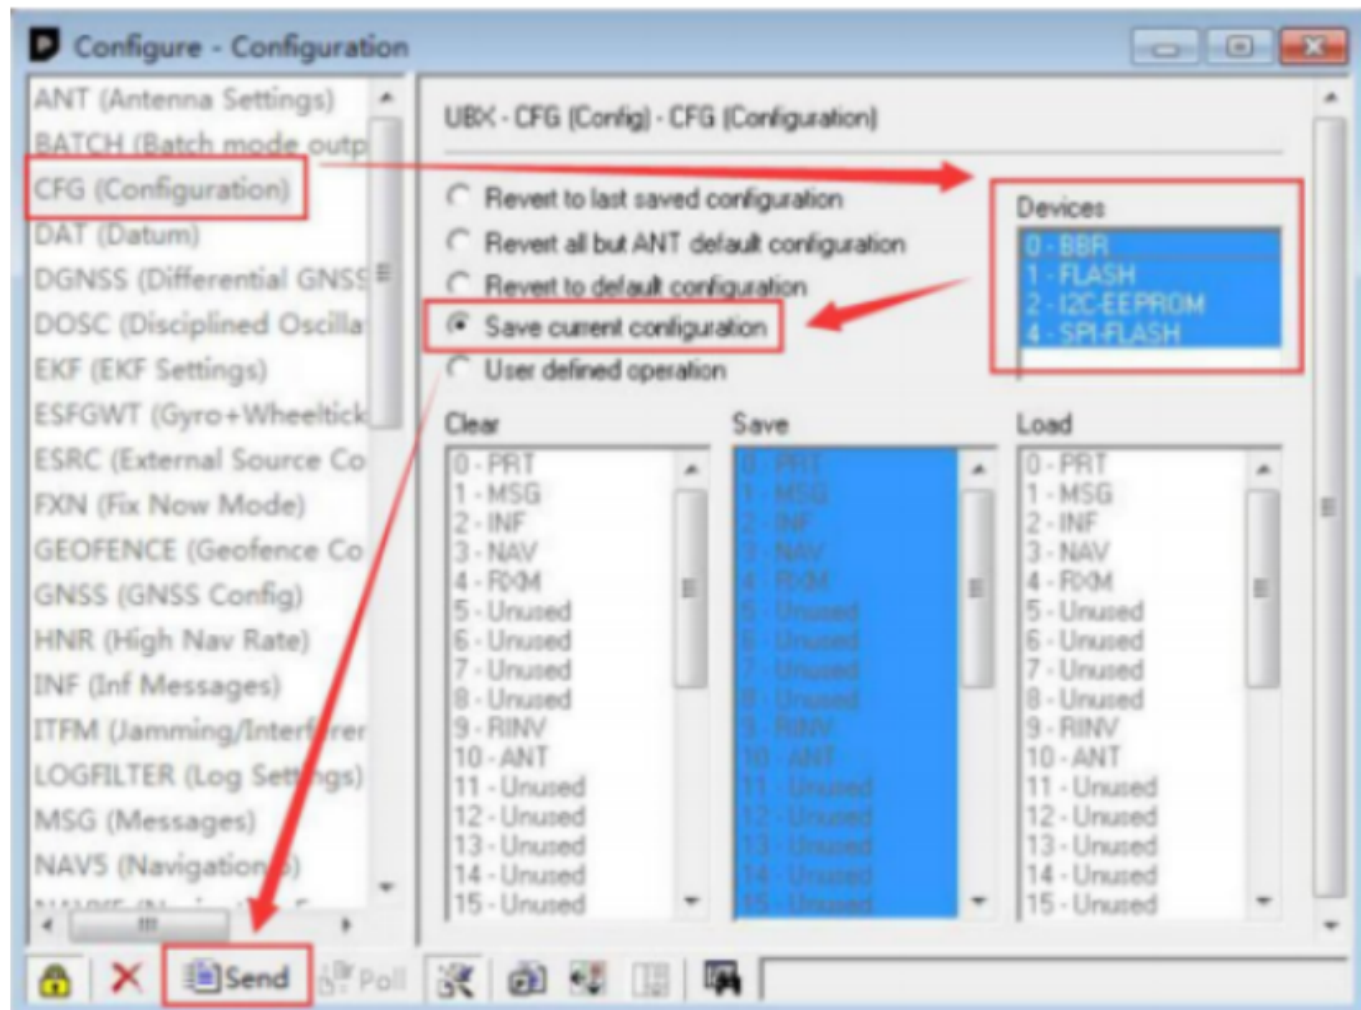

only GPS, NMEA version 2.3

GPS+GLONASS, NMEA version 4.0

GPS+BEIDOU, NMEA version 4.1

GPS+GLONASS+GALILEO or GPS+BEIDOU+GALILEO, NMEA version 4.1

step3: open the menu bar "View-"Configure View"- "CFG (Configuration)", select the appropriate options, and then click "send" to save the GPS baud rate changes.

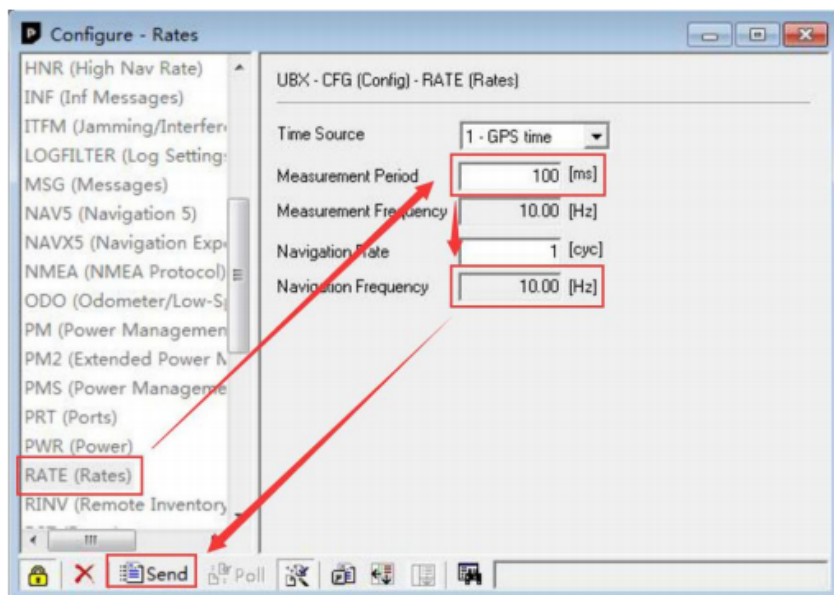

set the "Main Talker ID" = "GP" (GPS), but the receiver still use multiple GNSS

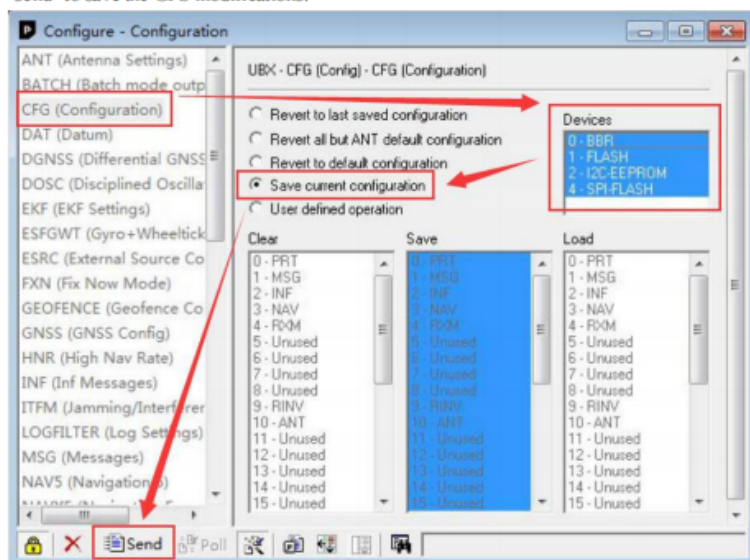

SET 4Hz.

■ Change Update Rate.

1. Open the menu bar "View"->"Configure View"->"RATE", enter the desired update rate, and then click "send".

2. Open the menu bar "View"->"Configure View"->"CFG (Configuration)", select the appropriate options, and then click "send" to save the GPS modifications.

Best Regards!

Hi, thank you so much

With this software ... Can I make the GPS to send only GPRMC messages and 4 Hz sending?

Regards
